

OUTSOURCED EMAIL SERVICES

In the past twelve months, GMSI delivered another year of **flawless system uptime**, reminding our customers that we are the most reliable **business email hosting** company on the market. Each year we expertly process millions of email messages and stop hundreds of thousands of email security attacks, viruses and spam messages dead in their tracks. That might be reason enough to use GMSI as your **email host**, but maybe you'll need more convincing. We offer a complete hosted email solution at a fraction of the cost of maintaining an in-house system. Our feature-rich mailboxes provide the following benefits:

Integrated Virus Scanning and Spam Control

Costly and potentially deadly, viruses and spam are productivity thieves that are more prominent than ever. Block 90-100% of viruses and spam, and see your investment pay for itself in days.

Online Management of Your Outsourced Email System

Take Control. Manage email accounts with our user-friendly online administrative tool. Add, edit, delete mailboxes, increase or decrease mailbox size, delegate administration to others...and much more.

Access to Your Email Accounts Anytime, Anywhere

POP3, IMAP4, SMTP, WebMail or Wireless. Take your pick, or offer them all.

Pay Only for the Email Storage You Need

Flexible mailbox storage packages prevent you from paying inflated prices for data storage that you don't need.

We're Here When You Need Us

We offer 24/7/365 customer support by phone and email. Our knowledgeable technicians will never leave you out in the cold.
